

# REECO MISSION STATEMENT

We are a creative and flexible company that offers high-quality, innovative and continuously optimized market oriented services in trade fair and congress organization.

We are specialized in the growing market of renewable energies, energy efficient construction and renovation.

With our visionary services, we bring together national and international exhibitors, visitors, partners as well as representatives from politics and the economy to our industry gatherings.

The customers of the REECO Group are at the center of our work. In addition, we maintain a cooperative relationship with our business partners based on a sound ecological foundation.

Our competence is based on years of service experience as well as a qualified network and a continually team oriented learning process.

Our international project teams are distinguished through their readiness and capacity for high performance and are the key to our success.

All employees are constantly encouraged and stimulated to develop, introduce, implement and take responsibility for new ideas on their own or as part of a team.

Our work style is oriented towards teamwork, know-how, efficiency and performance. The hierarchies of the REECO Group are based on knowledge, success, performance and social competence, and the leadership style is cooperative.
